Technical Bulletin

Subject: Day Time Running Lamps Switched ON Prior to Delivery

Group: 94

Number: 06-03

Model(s): Passat
Passat Wagon

2006 > 3C_6P166369
2007 > 3C_7E006665

Date: Mar. 13, 2006

Condition

To the VINs described above, Passat vehicles are now manufactured with Day Time Running Lamps (DRLs) switched OFF to avoid draining battery during shipping.

! Important Note:

YOU MUST switch DRLs ON prior to delivering vehicle to customer.

For Canadian Dealers: Canadian Law requires such activation. Failure to activate the DRLs may subject you and your dealership to substantial penalties under Canadian law.

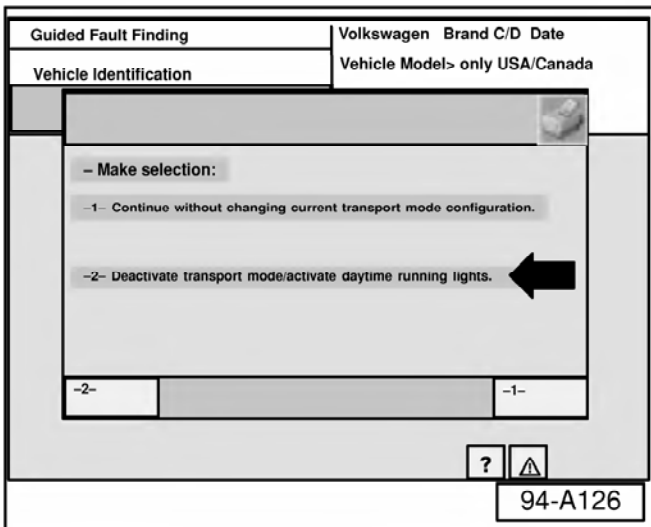

Service

Volkswagen Brand CD V.08.66.00 or higher, includes a special test to enable DRLs using Guided Fault Finding (GFF).

During Vehicle System Test, the technician will be prompted:

← - Select button -2- shown on-screen.

This function test also switches Transportation Mode OFF.

Important!

Please give copies to all your VW Technicians

◀ The Function Test “Coding/decoding daytime running lights” can be selected manually in GFF Function/Component Selection, and in Guided Functions. This allows DRLs ON, ONLY. It does not enable DRLs OFF.

Tip:

Procedure is included in the PDI. NO additional time is allowed.
