Seat, Heating Inoperative

Seat heater will not operate properly or becomes inoperative.

## Technical Background

Use of Guided Fault Finding (GFF) to prevent mis-diagnosis and unnecessary replacement of components.

## Production Solution

No Production Change required.

## Service

Locate GFF seat heating diagnostics as follows:

- Connect VAS 5051/5052
  - Select Guided Functions
  - Select function/component selection
  - Select electrical system

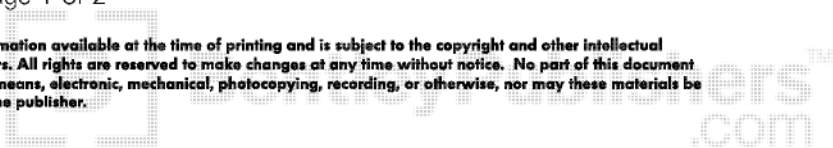

Tip:

If GFF calls for a part to be replaced during a GFF diagnostic procedure, attach a print out of the diagnostic log in guided fault finding to damaged part.

Note:

Replacing a component of the seat heating system without having carried out GFF diagnosis is not permitted. Parts submitted without proper documentation may be debited.
