MIL ON, DTC P2293 Fuel Pressure Regulator 2 Performance Stored in ECM after Installing Replacement Engine

Technical Background

High fuel pressure sensor (G247) on fuel rail of replacement engine does not match part number installed on original engine.

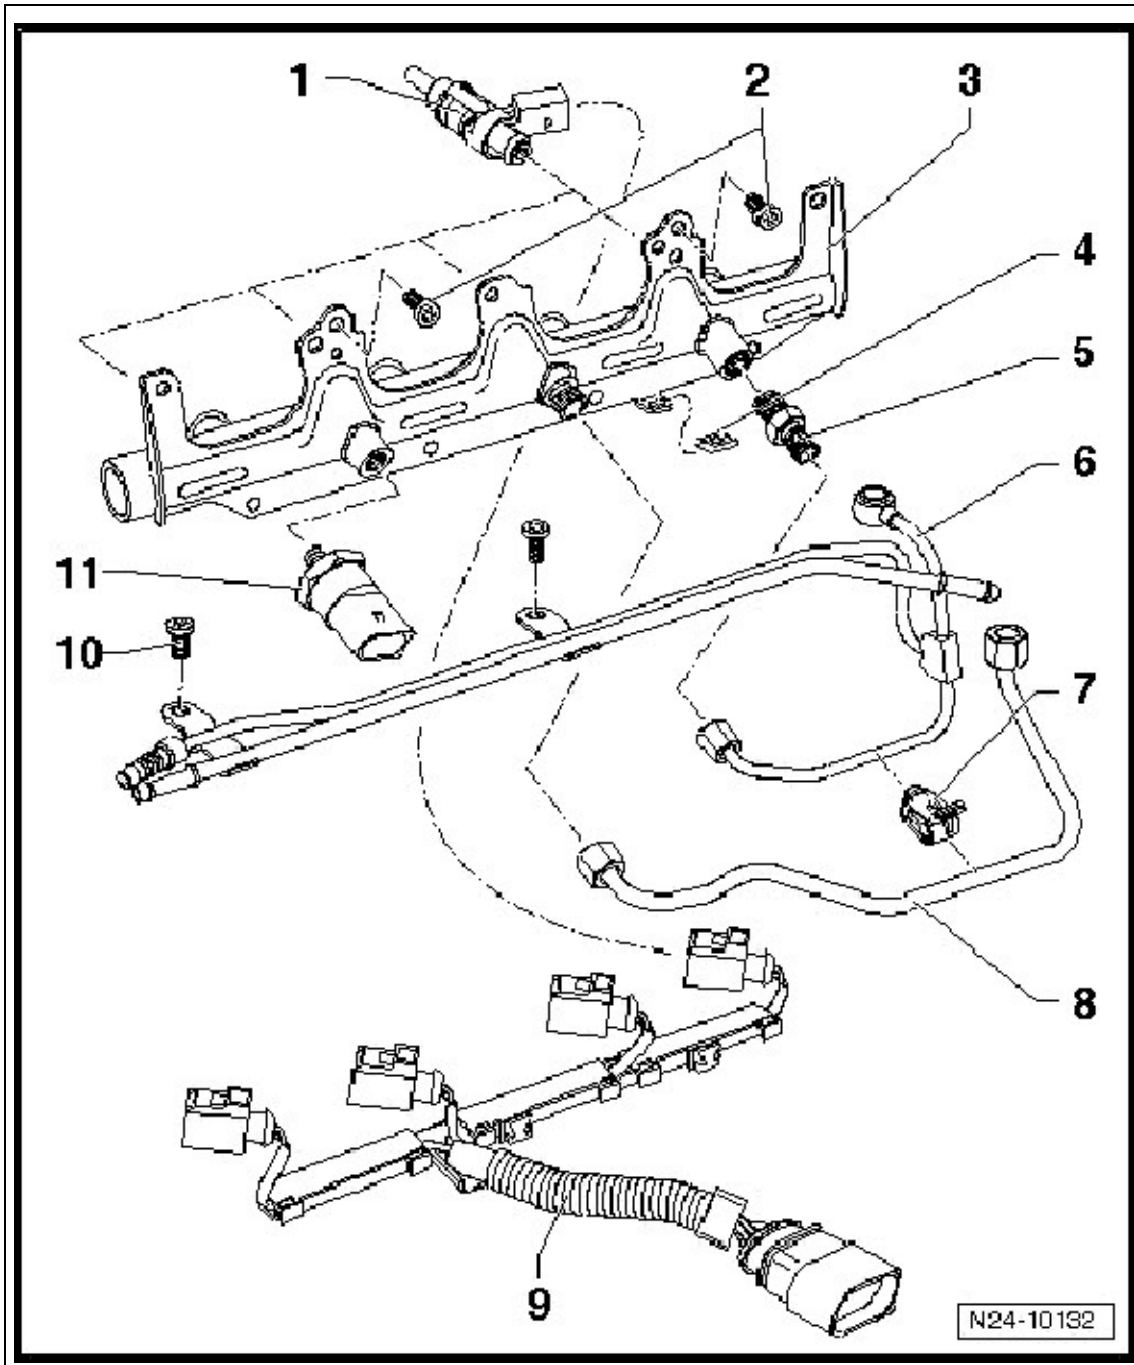

Production Solution

N/A.

Service

When changing a 2.0T FSI engine (BPY engine code), verify that the part number of high pressure sensor -G247- (#11) installed on fuel rail matches part number on engine that was removed.
